Music at Billingborough

Children will develop the musical skills of singing, playing tuned and untuned instruments, improvising and composing music, and listening and responding to music. They will develop an understanding of the history and cultural context of the music that they listen to and learn how music can be written down.

Through music, our curriculum helps children develop transferable skills such as team-working, leadership, creative thinking, problem-solving, decision-making, and presentation and performance skills. These skills are vital to children's development as learners and have a wider application in their general lives outside and beyond school.

Our Music scheme of work enables pupils to meet the end of key stage attainment targets outlined in the national curriculum and the aims of the scheme align with those in the national curriculum.

Our Music scheme takes a holistic approach to music, in which the individual strands below are woven together to create engaging and enriching learning experiences:

- Performing
- Listening
- Composing
- The history of music
- The inter-related dimensions of music

Each unit combines these strands within a cross-curricular topic designed to capture pupils' imagination and encourage them to explore music enthusiastically. Over the course of the scheme, children will be taught how to sing fluently and expressively and play tuned and untuned instruments accurately and with control. They will learn to recognise and name the interrelated dimensions of music - pitch, duration, tempo, timbre, structure, texture and dynamics - and use these expressively in their own improvisations and compositions. The instrumental scheme lessons complement the our scheme of work and allow lower key stage pupils to develop their expertise in using a tuned instrument for a minimum of one term as recommended in the Model music curriculum.

Our scheme follows the spiral curriculum model where previous skills and knowledge are returned to and built upon. Children progress in terms of tackling more complex tasks and doing more simple tasks better, as well as developing understanding and knowledge of the history of music, staff, and other musical notations, as well as the interrelated dimensions of music and more. In each lesson, pupils will actively participate in musical activities drawn from a range of styles and traditions, developing their musical skills and their understanding of how music works. Lessons incorporate a range of teaching strategies from independent tasks, paired and group work as well as improvisation and teacher-led performances. Lessons are 'hands-on' and incorporate movement and dance elements, as well as making cross curricular links with other areas of learning.

Lessons are adapted to ensure they can be accessed by all pupils and opportunities to stretch pupils' learning are available when required. Strong subject knowledge is vital for staff to be able to deliver a highly effective and robust music curriculum.

The impact of our scheme is constantly monitored through both formative and summative assessment opportunities.

After the implementation of our scheme, pupils should leave primary school equipped with a range of skills to enable them to succeed in their secondary education and to be able to enjoy and appreciate music throughout their lives.

The expected impact of following our Music scheme of work is that children will:

- Be confident performers, composers and listeners and will be able to express themselves musically at and beyond school.
- Show an appreciation and respect for a wide range of musical styles from around the world and will understand how music is influenced by the wider cultural, social, and historical contexts in which it is developed.
- Understand the ways in which music can be written down to support performing and composing activities.
- Demonstrate and articulate an enthusiasm for music and be able to identify their own personal musical preferences.
- Meet the end of key stage expectations outlined in the national curriculum for Music.
